SPRJAM Jammer Arms

Body-Solid Pro Clubline Jammer Arms build explosive power and add another dimension to Body-Solid SPR1000 Power Rack series. Built with 3"x 3", 11-gauge steel and oversized industrial-strength hardware, these Jammer Arms (sold in pairs) are designed for heavy use, commercial and athletic training facilities. The 11" chrome-plated weight horns feature plenty of room for heavy workouts and allow users to fully customize weight and resistance with Olympic weight plates. Rubber bumpers help protect racks from scratches and scuffs and reduce noise during workouts. Innovative grip handles allow for both neutral and angled grips for additional workout variety.

Note: Body-Solid Pro Clubline Jammer Arms should only be installed on a Body-Solid SPR1000 Power Rack that is securely fastened to the floor.

Weight: 85 lbs.

Dimensions: 8"L x 30.2"W x 39.2"H
